# AKSHAJ V NAIR

**Full Stack Developer | AI-Native · React & Python**

Kochi, India | +91 9496202179 | akx_vishnu@pm.me | linkedin.com/in/akx-vishnu
github.com/akx-vishnu | akshajvnair.vercel.app/minimalist

## PROFESSIONAL SUMMARY

Full Stack Developer specialising in React and Python, with a track record of shipping end-to-end web applications integrating REST APIs, PostgreSQL, and LLMs. Experienced with AI-native development workflows (Google Antigravity, Cursor, Claude Code, GitHub Copilot) to iterate rapidly on real-world projects.

## SKILLS

**Languages:** Python, Java, HTML5, CSS3, JavaScript, TypeScript

**Backend & APIs:** Flask, FastAPI, NestJS, Node.js (Basic), REST APIs, JWT Authentication, Socket.IO

**Databases & ORM:** PostgreSQL, MySQL, SQLite, SQLAlchemy, Drizzle ORM, Redis

**Frontend:** React.js, Next.js, Vite, Tailwind CSS, Framer Motion, Radix UI

**Mobile:** Android App Development (Kotlin), Flutter, React Native

**Tools & Cloud:** Git, GitHub, Docker, Vercel, Render, Tesseract OCR

**AI:** LLM Integration (Groq · Ollama · Llama-3), Prompt Engineering

**Productivity:** Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Google Sheets

**Soft Skills:** Technical Problem-Solving · Analytical Thinking & Research · Adaptability & Continuous Learning
Project & Time Management · Operations Management · Teamwork & Leadership

## PROJECTS

**EcoScan AI – AI-Powered Food Label Analyzer** *React · Flask · FastAPI · PostgreSQL*

- Built a full-stack AI web app using a decoupled microservices architecture (Flask + FastAPI) with a dedicated OCR service (Tesseract, OpenCV) and Groq Llama-3 for real-time ingredient analysis, health scoring, and an AI chatbot.
- Engineered secure user accounts with bcrypt password hashing and Flask-Login session management; persisted scan history, dietary preferences, and allergy data via SQLAlchemy ORM on PostgreSQL.

**RTS Fleet Manager – Real-time Fleet & Transport Management System** *Next.js · NestJS · PostgreSQL · Socket.IO*

- Built a full-stack employee transport platform supporting 50–60 concurrent drivers with sub-second live vehicle tracking via Socket.IO WebSockets, Redis caching, Leaflet maps, and Three.js visualisations.
- Architected a modular NestJS backend with 13 feature modules (Auth, Fleet, Routes, Rosters, Trips, Analytics, Audit, Events and more); used Drizzle ORM over TypeORM/Prisma for reduced query overhead and lower memory footprint.

**AbsoluteMinds – Library Management System** *Python · Tkinter · MySQL*

- Desktop app with full CRUD operations for book inventory, user auth, issue/return tracking, and CSV bulk operations; auto-database setup with normalized 3-table MySQL schema.

## WORK EXPERIENCE

**Python Programming Intern – ITBG, Knowledge Services Group** *Apr 2025 – May 2025*
*Kerala State Electronics Development Corporation Ltd. (KELTRON), Palakkad*

- Completed a 2-week intensive program covering Python programming, data structures, and GUI development using Tkinter.

**Cybersecurity Intern** *Sep 2024 – Oct 2024*
*Corizo*

- Completed a one-month cybersecurity training and internship program covering core security concepts and practices.

**Data Entry Operator (Part-time)** *Mar 2023 – May 2024*
*Rudra Travel Service, Coimbatore*

- Managed high-volume data entry, client records, and spreadsheet maintenance using Microsoft Excel and Google Sheets.

## EDUCATION

**B.Sc. Computer Science** *2023 – 2026*
*Yuvakshetra Institute of Management Studies, Palakkad (NAAC A) | University of Calicut*

**Class XII – CBSE** 86.2% | Computer Science: 97/100 (A1) *2023*
*Bharathamatha CMI Public School, Palakkad*

**Class X – CBSE** 89.2% *2021*
*Bharathamatha CMI Public School, Palakkad*

## RESEARCH & PUBLICATIONS

**Paper Presenter – MESKCON International Conference 2026** *Jan 2026*
*MES Kalladi College (NAAC A++), Kerala | Kerala State Higher Education Council*

- Presented: *"EcoScan AI – Personalized, AI-based, Eco-friendly Food Product Scanning System."*

## CERTIFICATIONS

**IIT Bombay (Spoken Tutorial / EduPyramids):** JavaScript · Python · PHP & MySQL · R · PERL · Java · Git · Android & Kotlin · Bootstrap

**IBM / Google (Coursera):** Python for Data Science & AI · Generative AI & Large Language Models · Generative AI: Prompt Engineering Basics · Introduction to AI

**TaLim AI:** Prompt Engineering · Educational Prompt Engineering with TaLim AI

**Corizo:** Cybersecurity Training & Internship
